BEDLINERS

UNIVERSAL FIT FOR ANY PICK UP

FLEET OF PICK UPS

SCUFF AND DING RESISTANT

TOUGH DURABLE COATING

EMERGENCY VEHICLES

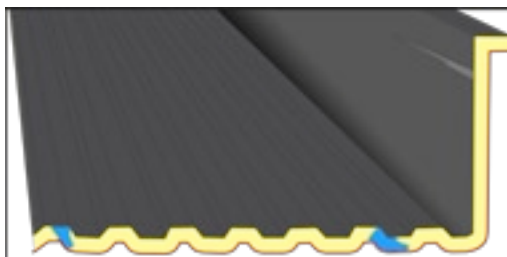

LINE-X offer a highly durable coating that can easily take the impacts and abrasions of the equipment being loaded in and out of the truck

vs Drop-in Liner

LINE-X completely seals your bed. No air gaps, no drill holes, no bolts. LINE-X, a custom contour fit...and there's no possibility that it will fly out on the motorway like a drop-in liner.

Over time, water and dirt will get trapped between your drop-in liner and the vehicle bed. Paint is slowly eroded away by the vibrating drop-in liner, exposing the metal to rust that eats away at your investment.

*UV Protection
Fade Resistant
Stain Resistant
Easy to Clean
Environmentally Safe
No CFC's, VOC's or Solvents*

Advantages:

- Prevents rust and corrosion
- Tough consistent surface
- Allows natural drainage
- Doesn't crack, split or warp
- Contours to the vehicles bed so no loss of cargo space

Aquaurethane Extreme has been specially formulated by our team of chemists to exceed the requirements of both UK WRAS approval as well as Regulation 31, of the Water Supply (Water Quality) Regulations, the UK's most stringent and highest standard for water containment.

**INTERNAL AND
EXTERNAL RESERVOIR
TANK LINING**

Advantages:

- **Single watertight monolithic membrane**
- **Cures in seconds, offering a quick return to service**
- **Resistant to most chemicals**
- **Prevents rust, corrosion and other forms of deterioration**

MARINE COATINGS

LINE-X provides durable, skid resistant surfaces ideal for boat decks.

A universal fit and a "factory finished" look.

LINE-X can be applied outdoors on substrates that are too large for the spray booth.

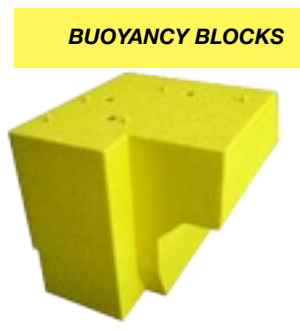

A fast cure time allows your boat to be back in service quickly and efficiently.
